Home Oasis

Make your home your everyday getaway with big windows, sunny spaces, and the perfect patio.

Spending time at home doesn't have to mean spending time inside. Getting outside is essential to health and wellness, and as our houses double as everything from offices to play spaces, it’s important to love the ins and outs of your home. Woodside Home Oasis features give you a place to step away and see what nature has to offer.

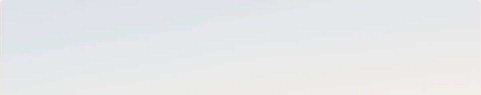
Personalize your porch or patio

With select plans, add even more outdoor space with covered or enclosed patios and porches.

PICNIC AREA

Let the outside in

Embrace nature and give yourself a room with a view with large sliding doors, big and bright windows, or a private courtyard.



Enjoy family dinners in the fresh air

From entertaining friends to starting a new family tradition, you can dine al fresco in your Woodside home with an outdoor fireplace, barbecue, or pizza oven.

Dream up your outside oasis

Whether you want a relaxing garden, a refreshing swimming pool, or a layout with more privacy, you can personalize your backyard to meet your needs.

> So excited to call our neighborhood home! The process was so easy from the beginning. We went to several new build communities and ended up falling in love with Woodside because of their professionalism, quality of product, and workmanship.
