

How to choose a **COVERMATES COVER**

Step 1: Take Measurements

We provide suggestions for which covers will best fit your needs, but the most important thing is to determine the dimensions and find a cover that matches your measurements.

Step 2: Choose a Material

Our material collections feature varied levels of protection. Decide which is best for you based on weather elements (sun, wind, rain), the location (in a garage, under a covered patio, completely exposed), and your warranty preferences.
